# Bandicam 2.0.0 Version Update

1. Applied new Bandicam UI design.

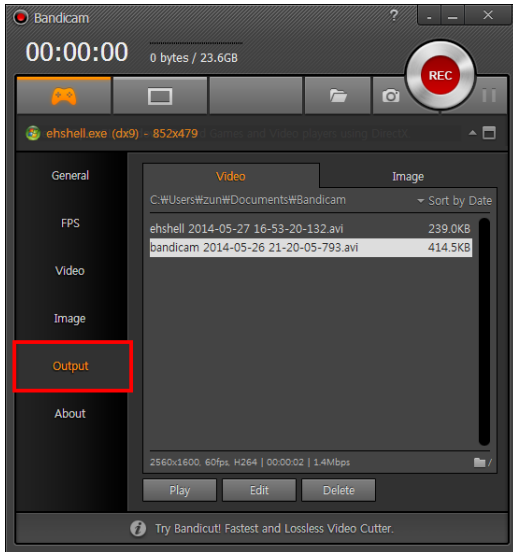

2. Added support for Simple/Extended UI.

3. Added support for the Nvidia® NVENC H.264 encoder.

4. Added a new preset (H.264, 60FPS for Nvidia NVENC).

5. Added the Output tab to manage the recorded video/image files.

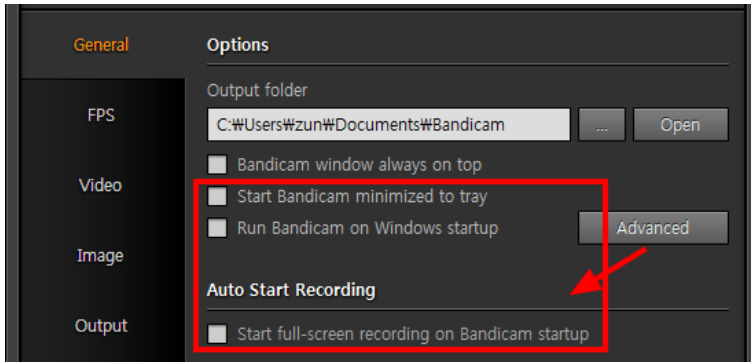

6. Added a shortcut to Bandicut for editing without losing quality.

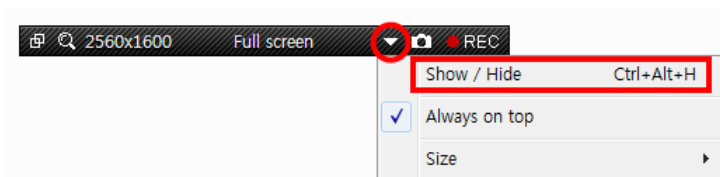

7. Added the auto start recording function.

- Bandicam is now able to automatically start recording on Windows startup.

8. Added the show/hide rectangle window function/hotkey (Ctrl+Alt+H).

9. Added support for multiple hotkeys (Ctrl, Shift, Alt key combinations are available.)

10. Increased the dialog font size.

11. Bugs fixed

      - Delay with the repeat image capture function.

      - Other minor bugs fixed.
