

## Bandicam 2.1.1 Version Update

### 1. Bandicam now supports a real-time drawing function while recording the computer screen.

- Users can simultaneously draw lines, boxes, or highlights while recording in the 'Rectangle on a screen' mode of Bandicam.

### 2. Added a **Size Preset** function which allows the user to save the current target position and size in the 'Rectangle on a screen' mode of Bandicam.

### 3. The recording target will be locked when the repeat image capture function is used.

### 4. Bugs fixed.

- FPS information of Some MP4 files was displayed incorrectly in the Output tab.

- Keyframe interval settings didn't work properly while using the MPEG-4 video codec.
- Other minor bugs fixed.
