3. The splash screen (launch image) will not be displayed when Bandicam automatically starts.

- 4. Improved compatibility with Homeworld Remastered Collection.
- 5. Added the "Open Output Folder" menu under the rectangle window.

6. Bugs fixed

- The backspace key (\) didn't work as a hotkey in some countries.

- The FPS limiter didn't work when the recording pause button was used.

- The recorded sound was only heard on the left speaker when recorded with certain microphones (Rode Podcaster, etc.)

- The size/position preset function on the rectangle window didn't work properly when using dual monitors.
